

Bargaining Update

Your CEA bargaining team met with the District earlier this week on Tuesday, April 24, 2018. Both CEA and the District made significant movement but were not able to finalize an agreement as there is still a ways to go on major financial and working conditions issues.

The District offered a 1% percent increase to our salary schedule for FY19 and increased health insurance contribution to \$1723 per member per month (from \$1685). They are still pressing to take away our five floating holidays and replace them with four additional annual leave days each year.

The CEA team agreed to a 1% percent wage increase, lowered our proposed health insurance district contribution to \$1750 per member per month, and stood firm on keeping the current leave accrual language.

The CEA team hopes to meet with the District once more before the end of the school year.
